

VICTOR IKE

Full-Stack JavaScript Developer

☎ 414-567-8603 ✉ victorike08@gmail.com [in](#) [developing-vic](#) [GloBoiVic](#)

PROFESSIONAL SUMMARY

Dedicated and results-driven professional with five years of experience in social work as a case manager, now pivoting to a dynamic career in full-stack JavaScript development. Eager to apply a strong foundation in the MERN stack and transferable skills from social work to drive innovative solutions in the technology sector. I will be an asset to your company as a full-stack JavaScript developer.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, HTML/CSS

Frameworks: Node.js, Express.js, Tailwindcss

Libraries: Mongoose.js, React.js, Redux, React Router, React Query, React Hook Form / Zod

Database: MongoDB, Supabase

Developer Tools: Git/Github, VSCode, Postman, Vite, Bun

WORK EXPERIENCE

Case Manager

May 2018 – July 2023

JusticePoint Municipal Court Alternatives Program

Milwaukee, WI

- Worked collaboratively with the courts and clients who are indigent and have Milwaukee Municipal citations to recommend the best alternative to payment on forfeitures
- Conducted intake interviews that covered clients' personal and health history to identify any Mental Health or Alcohol/Drug Abuse issues
- Managed a caseload of 40+ clients and documented all client information in a database
- Helped over 150 clients resolve their Milwaukee Municipal citations
- Participated in the JusticePoint technology committee and was in charge of debugging any technical issues that arose in the office

PROJECTS

Wordit | *Typescript, Express.js, MongoDB, React, Tailwindcss, NextUI, git*

Live | Repo

- Developed a full-stack custom vocabulary word tracker for users to keep track of words they come across in their day-to-day lives
- Collaborated with a UX designer to design a user-friendly and mobile responsive application
- Successfully implemented authentication features, enabling secure user sign-up and login
- Integrated MongoDB on the backend and React Query on the frontend to effectively manage data synchronization
- Resolved multiple bugs and issues, ensuring a smooth and error-free application
- Deployed Wordit to production and garnered 3+ users

The Wild Oasis | *Supabase, React, Styled Components, Recharts, git*

Live | Repo

- Developed a full-stack admin dashboard application using Supabase; serving a REST API with React on the frontend
- Utilized Recharts library to create and display stunning data visualizations

Picture My Code | *React, Zustand, Tailwindcss, ShadCN-UI, git*

Live | Repo

- A ray.so clone with additional features for developers to share code snippets
- Successfully deployed application to Netlify with continuous integration with git

EDUCATION

Marquette University

Milwaukee, WI
